

Deck Defense® High Performance Roof Underlayment

Your roof is a big investment. Help protect it right from the start against water damage in the attic, which can cause mold growth and rotting deck boards. Deck Defense® High Performance Roof Underlayment features a durable, synthetic construction that works with your shingles to help shield your home from moisture infiltration.

Description

- Acts as a non-absorbent, secondary water-shedding barrier
- Unique bottom surface coating reduces the chance for tears that cause leaks, as compared to other felt underlayment
- Provides roof deck protection from UV exposure for up to 6 months**
- Extra wide rolls cover approximately 5 times more than standard felt rolls
- Preprinted nailing pattern and overlap lines help speed installation
- 30-Year Limited Warranty*

Deck Defense® High Performance Roof Underlayment is part of the Owens Corning® [Total Protection Roofing System](#)™§.
